1. INTRODUCTION

1.1 Purpose and Scope

This Traffic Management Plan (TMP) has been prepared for Comprehensive traffic management for King William Street Adelaide - CBD Pedestrian Control on 50 King William Street Adelaide.
The scope includes Construction activities from 2025-10-26 to 2025-11-09.

1.2 Objectives and Strategies

Objectives:

- Safety of road workers
- Safe guidance of all road users
- Minimal network impact
- Minimized disruption and inconvenience
- Minimized impact on adjacent properties

Strategies:

- Maintain safe access for all road users
- Minimize work zone length and duration
- Provide clear advance warning of work activities

2. PROJECT OVERVIEW

2.1 Location

Works located between 50 King William Street Adelaide and 100 King William Street Adelaide

2.2 Project Details

Item	Details
Project Location	50 King William Street Adelaide
Road Classification	Major Urban Arterial
Existing Speed Limit	60 km/h
Road Authority	Local Council
Principal Contractor	Complete TMP Solutions Pty Ltd
Scope of Works	Comprehensive traffic management for King William Street Adelaide - CBD Pedes
Project Dates	2025-10-26 to 2025-11-09
Work Hours	Standard hours: 7:00 AM to 6:00 PM, Monday to Friday

3. RISK MANAGEMENT

3.1 Risk Classification

Risk assessment follows the qualitative risk matrix approach with consequence and likelihood ratings.

3.2 Risk Register

Risk Event	Consequence	Pre-Treatment Risk	Treatment	Residual Risk
Vehicle collision with worker	Major injury or fatality	High	Physical barriers, high-vis clothing, traffic control	Medium
Vehicle collision in work zone	Property damage, injury	High	Clear signage, adequate warning distance, traffic control	Low

TRAFFIC GUIDANCE SCHEMES

The following traffic control devices have been positioned according to Austroads standards:

Device Type	Device Name	Position	Compliance
Warning	Road Work Ahead	Lat: -34.923319, Lng: 138.59976	Manual placement

7. IMPLEMENTATION

7.1 Traffic Guidance Schemes

Stage 1: Initial setup and lane closure

7.2 Sequence and Staging

Stage 1 - Setup:

Install advance warning signs and initial traffic control
Safety Measures: Use of safety vehicles and trained personnel

Stage 2 - Work Phase:

Maintain traffic control throughout work activities
Safety Measures: Continuous monitoring and adjustment as required

Stage 3 - Removal:

Safe removal of all temporary devices
Safety Measures: Systematic removal in reverse order of installation

8. EMERGENCY ARRANGEMENTS

8.5 Emergency Contacts

Service	Contact
Police	000
Ambulance	000
Fire	000
Road Authority	TBC
Project Manager	08 8123 4567

This Traffic Management Plan has been prepared in accordance with:

- Main Roads Code of Practice
- AGTTM
- AS 1742.3
